This set of beams with its hut for sale are very well located geographically due to its proximity to the center of the Principality, in the area of La Plana, in Engolasters. They must be approximately 2,552 m2, those at the bottom, with the built hut of about 37m2 and above the road, where we have 2 more beams. In an environment of nature but at the same time close to all the necessary services, this plot is classified as a plot of land on urbanizable land and is located within a partial plan in a residential building area. The south-west orientation makes this plot very sunny and has spectacular views towards Escaldes, Andorra la Vella, and the Comapedrosa mountain range.
